The purpose of this PCB Log is to comply with the requirements of the Rules and Regulations as published in Federal Register Vol. 44 No. 106 — Thursday May 31, 1979 especially section 761.45 - Records and Monitoring which follows in part.

Annex VI (p. 31557)

§ 761.45 Records and monitoring.

(a) PCBs and PCB Items in service or projected for disposal. Beginning July 2, 1978, each owner or operator of a facility using or storing at one time at least 45 kilograms (99.4 pounds) of PCBs contained in PCB Container(s) or one or more PCB Transformers, or 50 or more PCB Large High or Low Voltage Capacitors shall develop and maintain records on the disposition of PCBs and PCB Items. These records shall form the basis of an annual document prepared for each facility by July 1 covering the previous calendar year. Owners or operators with one or more facilities that use or store PCBs and PCB Items in the quantities described above may maintain the records and documents at one of the facilities that is normally occupied for 8 hours a day, provided the identity of this facility is available at each facility using or storing PCBs and PCB Items. The records and documents shall be maintained for at least five years after the facility ceases using or storing PCBs and PCB Items in the prescribed quantities. The following information for each facility shall be included in the annual document
